

AMENDMENTS TO THE DRAWINGS

Please accept the replacement drawings submitted with this Preliminary Amendment.

REMARKS

The paragraph in the above Amendment to the Specification section has been amended to correct spelling errors, and reference numbers 35 and 36 have been added to similarly referenced parts, which were already in the specification, in order to more clearly describe the manner in which the device reflects laser radiation and infrared radiation. The claims as submitted in the original application are unchanged. The replacement formal drawings are also submitted for clarity. Applicant believes that no new matter has been added to the application.

CONCLUSION

Applicant has submitted the Preliminary Amended merely to describe the support for the claimed invention more clearly. If the Examiner has any questions concerning this Preliminary Amendment, or if the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided. Prompt and favorable consideration of this Amendment and Reply is respectfully requested.
